

LOCATION CHIRMSIDE PARK VIC • **TYPE** CHILDCARE • **BUILDER** MORE BUILDING GROUP • **TOTAL SQM** 150

STEPHEN DEAN • MORE BUILDING GROUP

Dincel made building the balustrade on this childcare centre so easy. The panels were **laid horizontally**, forming a 1m balustrade which was later clad. This saved weeks off the program, with significant cost savings. The team at MBG were so impressed with the **structural benefits** of the Dincel wall, we also included it in the main access core (lift and stair) to achieve the **necessary fire ratings required under the NCC**, and furthermore extending the **structural integrity** into the columns.
