STRUCTURAL WALLING

TESTIMONIAL

LOCATION WRIGHT ACT • **TYPE** MULTI RES • **ARCHITECT** OZTAL ARCHITECTS • **INSTALLER** PACIFIC FORMWORK • **PROFILES** 200, 275

DEAN KENSIT • OZTAL ARCHITECTS

While the incorporation of stratum subdivision gave architects and designers the freedom to think outside the traditional box, it also created some challenges for construction. The designers and architects needed a structural wall solution that could be used across a wide variety of applications, from basements to stairwells, above ground party walls, some exterior facades, and a towering 8.4m high lift shaft. The wall system itself served structural purposes. It also provided a solid backdrop for the external facade finishes, including a render system and batten screening, which helped create a striking and rhythmic facade that aligns with our architectural vision.
